Elsby and Co

We started off as husband and wife business in a back bedroom nearly 25 years ago, and have since grown to a multi office practice with nearly 30 employees. As a business, our ethos and values have remained the same despite our growth. The foundation of Elsby and Co is that we operate effectively and efficiently whilst making sure you are 100% happy with our service. We explain everything along the way so that you understand in a language which is simple and clear (none of this accountancy jargon). We take pride in everything that we do as well as ensuring you get value for money.

So why us?

- We make sure you don't break the rules when it comes to HMRC
- Help you to keep more of your income
- Keep you ahead of the game – we're always keeping ourselves up to date on changes to legislation which means that we don't miss a trick
- Connect you to the right people
- We specialise in looking after locums – not only do we have experience but we have also made a conscious effort to gain sound knowledge of the industry. This means that there are no surprises

What can we do for you?

We give you the right tools to nurture, maintain and grow your business. We will give you a contract review to ensure that you are IR35 compliant; most importantly we will help and support you when you need us; having an accountant doesn't need to be hard work or complicated.

*Locum package:

£100 per month (+ VAT)
